Scott,

Attached for OGC review are some internal talking points for a meeting with AAPCO to have a discussion with them about 24(c) vs. 24(a) but they have also weaved in some dicamba related points. I've attached their letter to the administrator for your reference. Our meeting with AAPCO is September 9. If you could review these this week we would appreciate it, for clarity we do not intend to share the document with anyone outside of OPP.

Thanks.
